General information and safety warnings

- Remove all packaging and make sure that the gazebo is intact. Do not leave packaging materials like bags and staples within the reach of children and pets.
- Only use the gazebo for its intended purpose.
- Do not use any open flames inside or near the product.
- Always check for overhead electric wires, tree branches or other structures before installing the gazebo. Be aware of anything that could cause rainwater to run off onto the gazebo.
- Do not store any flammable liquids inside the shelter.
- Do not hang anything from the roof or supporting frame.
- For outdoor use only.
- Always use on a flat, level surface.
- Do not allow children to play with or climb on the gazebo.
- Do not allow water to pool in the roof as this will result in excessive weight on the roof.
- Allow to dry fully before storing.
- This gazebo is not designed to be a permeant structure.
- If adverse weather is predicted, always dismantle and store away the gazebo.
- Never used hard-edged tools (such as a shovel) to remove something from the fabric of the gazebo.
- Do not hang anything from the roof or supporting frame.
- Not suitable for commercial purposes.

Assembly

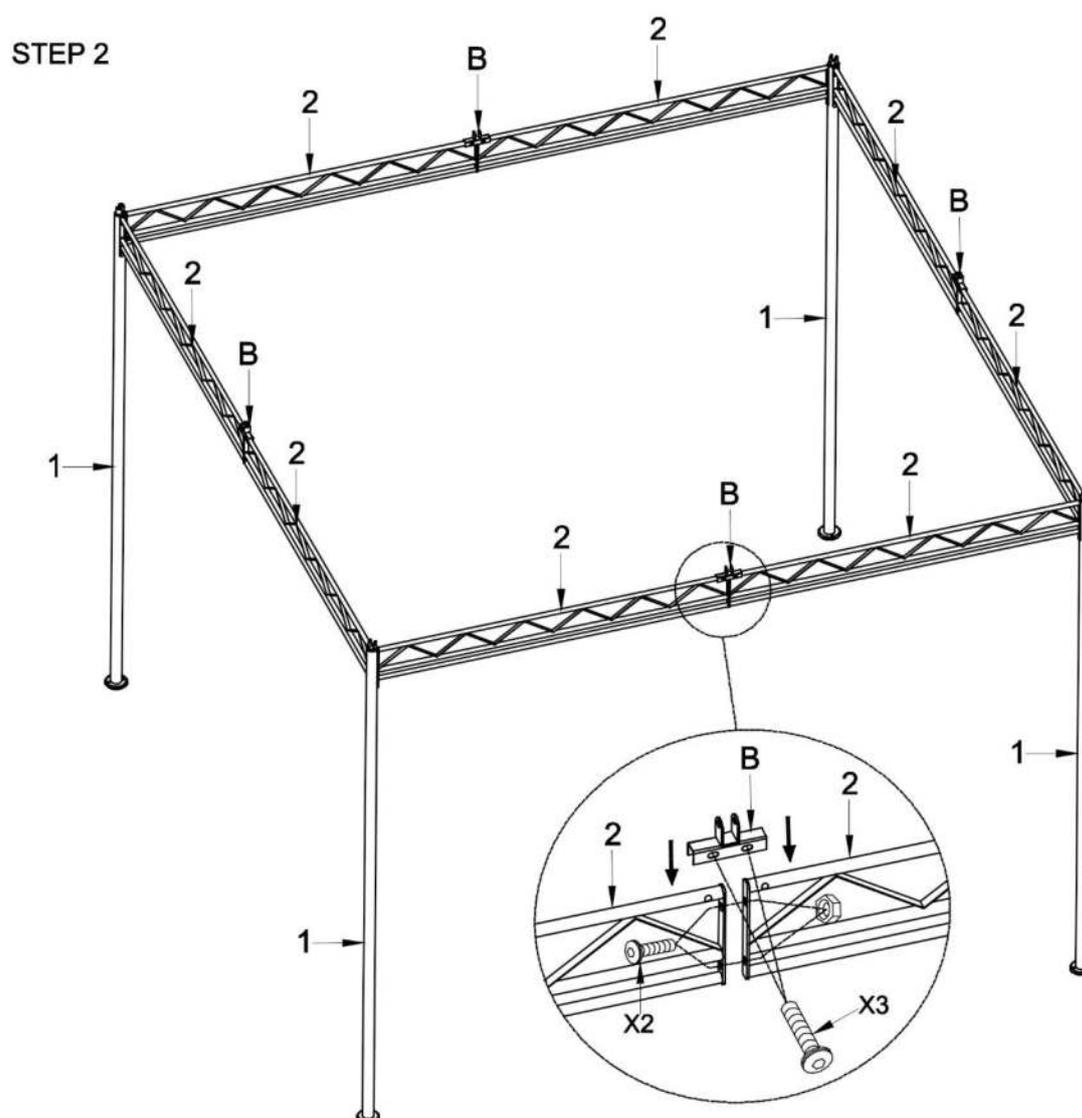

- Unpack everything and dispose of all packaging materials.
- Lay out all the parts and ensure that you have everything as listed in the parts list.
- We recommend 4 people assemble this gazebo.

1. Connect the top metal bars (2) to the supporting corner pole (1) using screws (X1) and bracket (C). Then use screws (X4) and bolts through the centre of the metal bars into the supporting pole. Repeat this for all 4 corners.

STEP 1

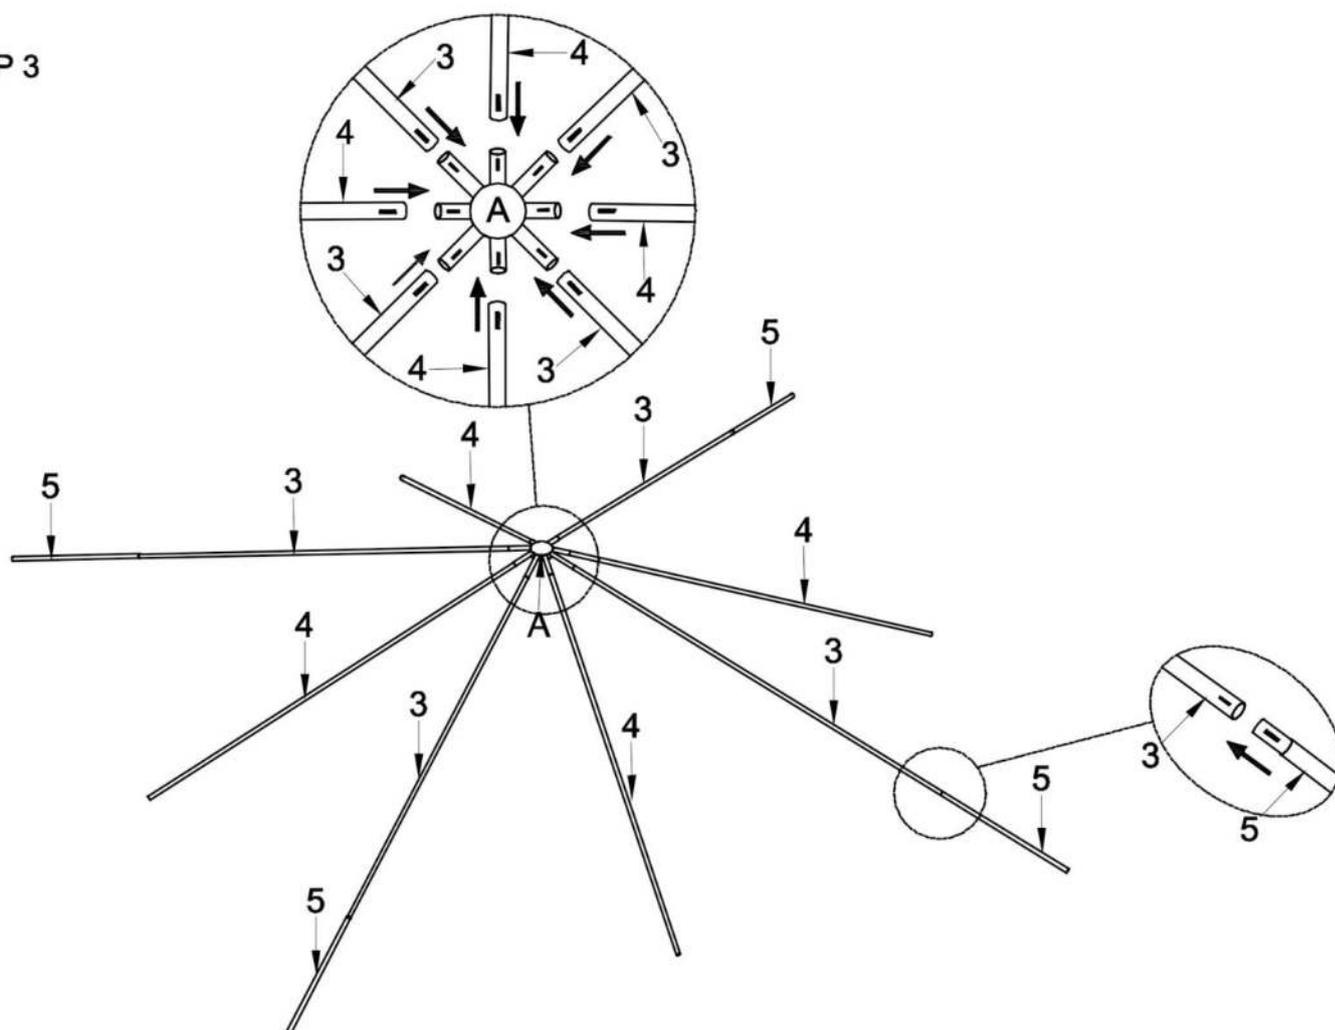

2. Once all 4 corners are built, you then need to connect the corners to each other via the metal bars (2). You do this by using brackets (B) and screws (X3). Then secure through the centre of the metal bars using screw (X2) and bolt.

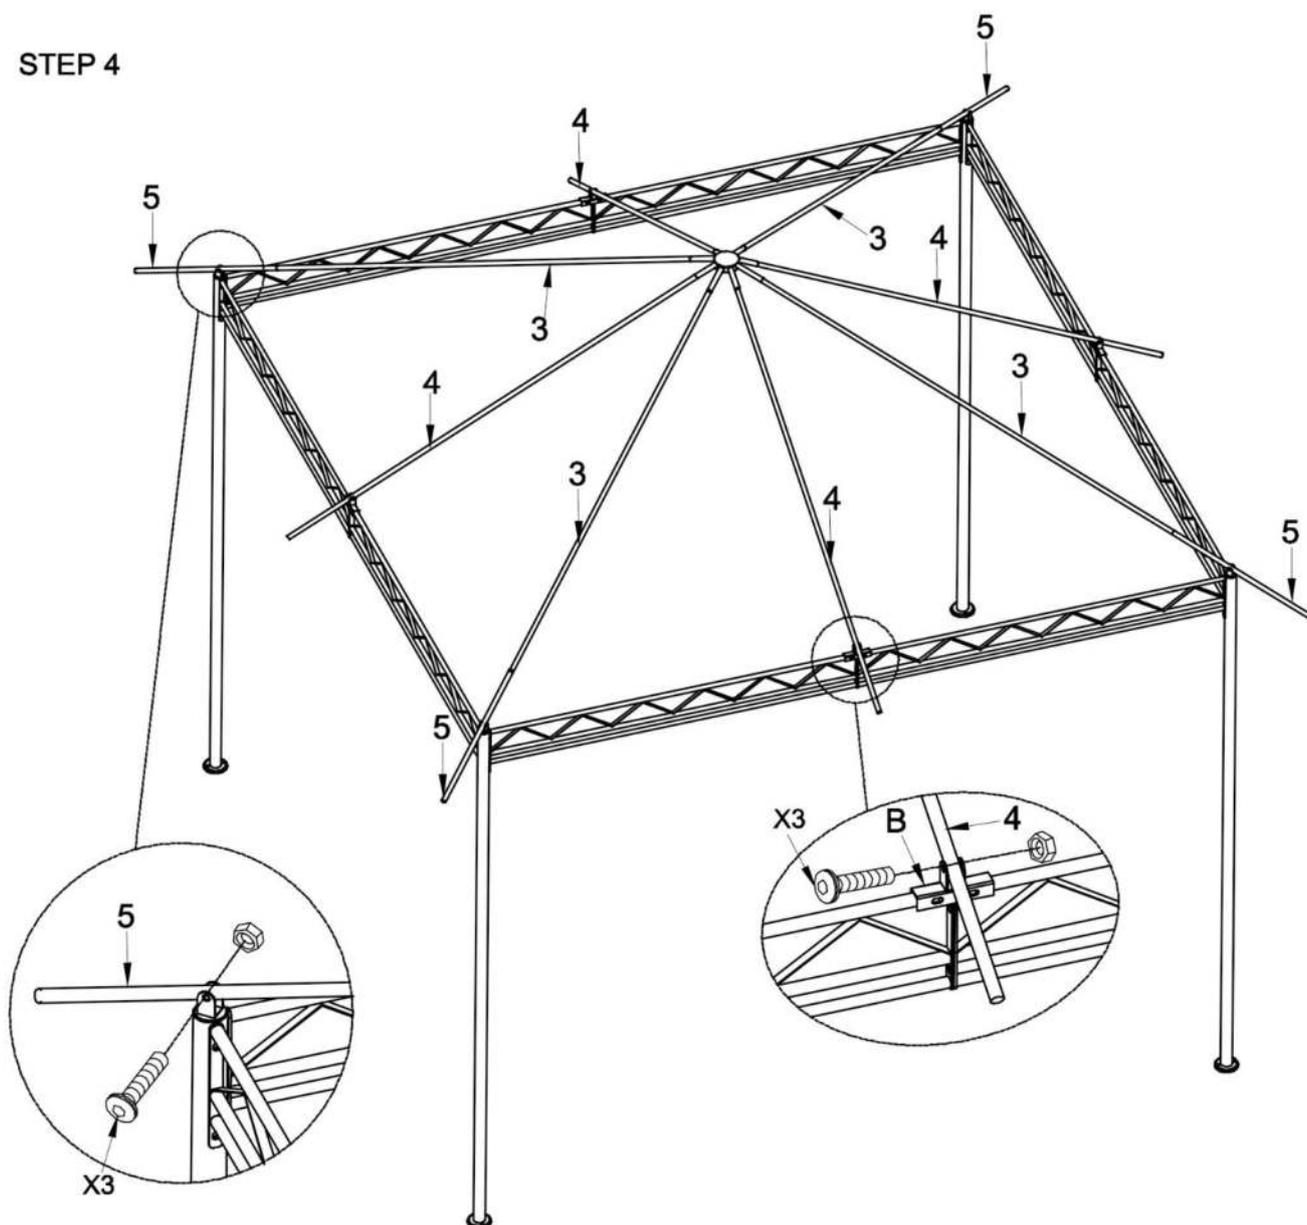

3. To build the roof:

1. Connect poles 3 & 5 together to create 4 long poles.
2. Insert the 4 long poles (3 & 5 connected) into the centre piece (A).
3. Then insert the other poles (4) into the centre piece (A).

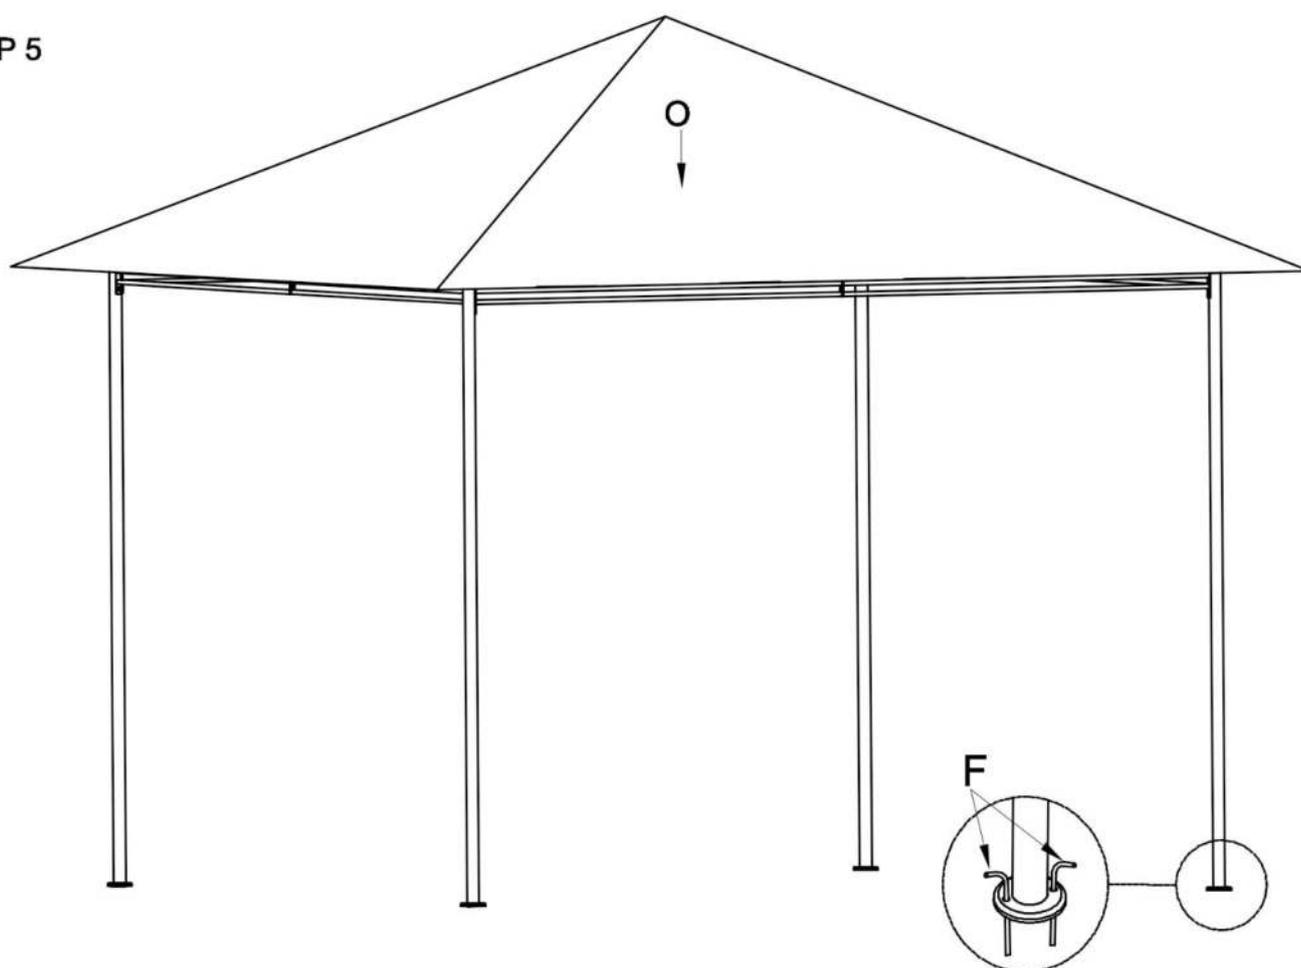

STEP 3

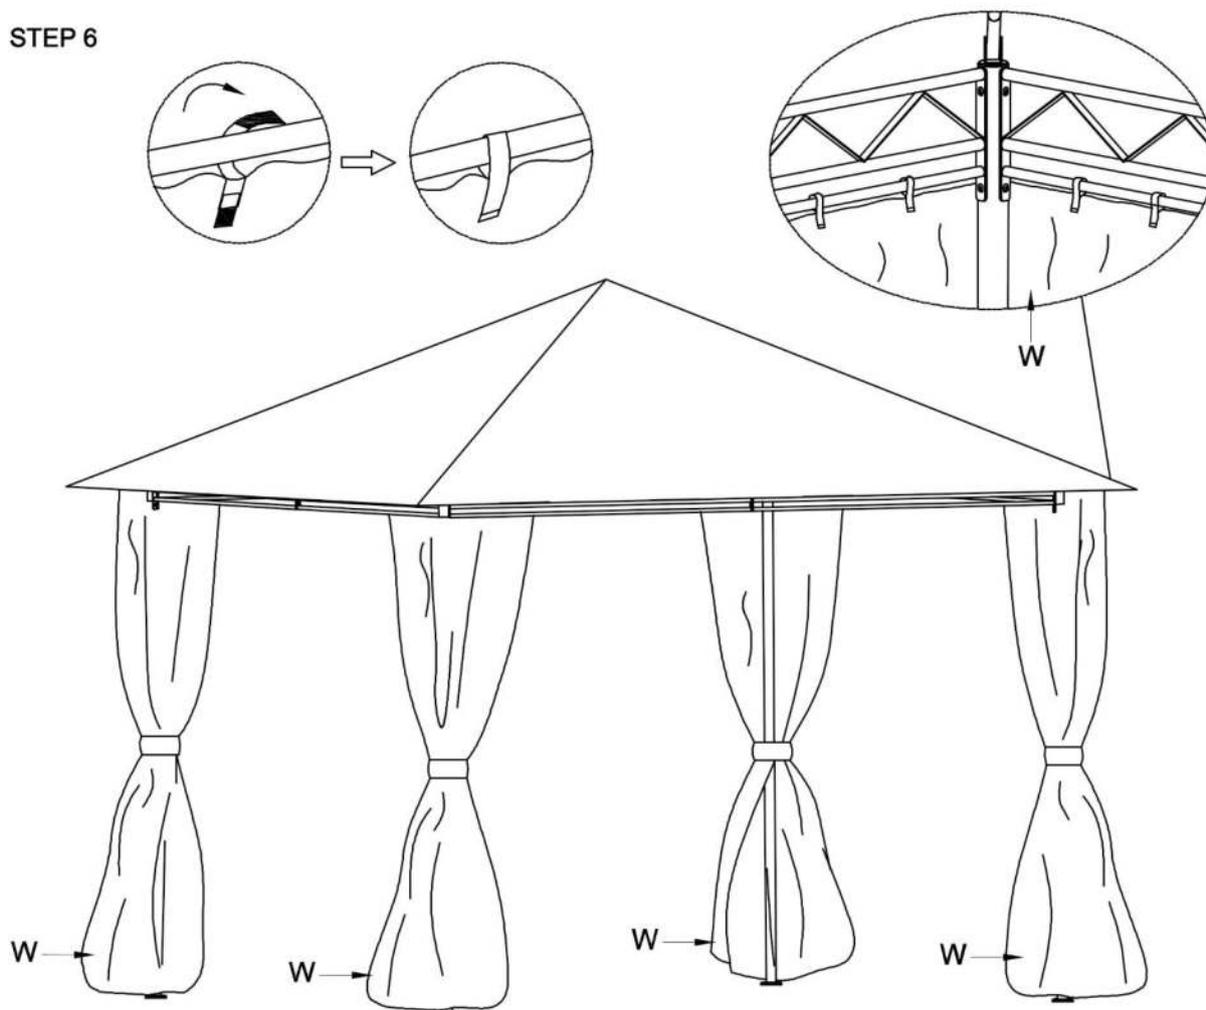

4. To attach the roof to the frame, insert all the poles through the corners and middle of the metal bar (2). Secure each pole with a screw (X3) and bolt.

5. Once the frame is secure, put the roof material (O) over the frame. Also secure the frame to the ground using pegs (F).

STEP 5

6. Attach the sides of the gazebo (W), starting at the four corners and working your way to the middle (like you would with a curtain) using the sticky tabs.

STEP 6**Cleaning and maintenance**

- Spot clean when needed with a soft damp cloth.
- Allow to dry naturally, completely before packing away.
- Do not use the gazebo in adverse weather.
